

The well-being of our staff and patrons is our top priority, so we have decided to close our restaurant to limit the spread of the Coronavirus (COVID-19) for at least 2 weeks from March 16th thru March 29th according to guidance from the city.

This closure may be extended if necessary.

In this uncertain time, we urge our community to continue to act with compassion and care and take all necessary precautions to protect yourselves and each other.
